ABOUT US

Since 1989, Torchmaster Australia has been a leader in the welding industry, starting as a wholesaler of welding accessories and parts. Over the years, our dedication to quality and innovation has driven us to expand our offerings to include arc products, gas equipment, MIG, TIG, plasma accessories, and welding-specific safety gear, meeting the diverse needs of heavy industrial applications, trades and home DIY enthusiasts nationwide.

With warehouses strategically located in Perth (headquarters), Brisbane, and Melbourne, we ensure efficient distribution and prompt service. As a premier importer and wholesaler, Torchmaster proudly represents top brands such as Parweld, Omega, Taurus, Felder, Bullfinch, Wescol and Oetiker, known for their quality and reliability.

Orders Ready Within 4 Hours:

Fast processing to keep your operations running smoothly.

Wide Range of Products at Competitive Pricing:

Quality and affordability combined.

Australian Owned & Operated for Over 30 Years:

Trusted experience and local expertise.

Local Support Teams Australia-Wide:

Dedicated support for all your needs.

Expert Advice:

Industry and product specialists ready to assist.

Warehouses in Perth, Brisbane, and Melbourne:

Efficient distribution across the country.

AVA7231

- For 90° clamping of pipes and tubes
- Clamping Capacity 8.8cm.
- Jaw Length 10.10cm

AMM7088

- Strong magnets attract all loose swarf and steel scraps.
- Simply slide center out to release all picked up rubbish.
- 400mm in length.
- Very quick clean up.
- Heavy Duty construction made to last.
- High Quality Super-Mag brand.

OME6961

- Sheet panel clamps Butt Weld - 4 piece.
- Designed to align panel for edge to edge seam Welding.
- Work with flat, concave or convex panels.
- Easily removable or reusable.

AMM6658

- Strong magnets attract all loose swarf and steel scraps.
- 100cm length but retractable to 70cm length.
- Head of the magnet can be replaced
- Flat packed for easy transport and delivery

AMM6658A

SUPER MAG WELDERS MAGNETIC HOLDERS

Stock Code	Product Description	Pack Size
AMM6658	Round Magnetic Cleaner 1m retractable	1
AMM6658A	Replacement Head	1
OMEMHS101	Magnetic Floor Sweeper	1

OMEMHS101

- 61cm wide magnetic floor sweeper.
- Handle can be retracted and can be flat packed for delivery.
- Floor Sweeper to pick up nails, screws, paper clips and other ferrous metal items.
- Sweeper picks up item into the cavity and then it can be released over a disposal unit.
- Light aluminium housing. Sweeper can be used in machine and fabrication shops, factories and construction sites.

Magnetic Position Holder

Special features include

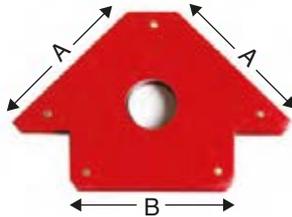

- 3 Models to choose from depending on job weight & size
- Can hold welding jobs (Sheet, Tube or Other) at angles of 45°, 90° or 135° as needed
- Helps like a 3rd hand in positioning and holding jobs on ferrous surfaces.

CH127-H

CH127-H

CH075

CH125

MI-WG-8

- Cam Type Weld gauge is used for measuring fillet leg length and weld throat size.
- The Weld Gauge is designed to measure undercut and pitting depth and excess weld metal.
- The Weld Gauge is offered in a cam type construction and finds application in the welding industry. Cam Type Weld Gauge that comes under MI-WG-8 model can also measure roof and face gap, angle of preparation and misalignment.

HI-LO GAUGE

- Internal misalignment after fit up.
- Material thickness after fit up.
- Verify 37/1/2 degree bevel angle.
- Fit-up gap after fit-up.
- Fillet weld leg length.
- Butt weld reinforcement.

MI-WG-11

The fillet Weld gauge allows fast, accurate measurement of eleven (11) fillet weld sizes: 1/8", 3/16", 1/4", 5/16", 7/16", 1/2", 5/8", 3/4", 7/7" and 1", and their metric equivalents, to determine weld sizes either concave or convex.

GAS BOTTLE HOLDERS

Torchmaster Australia introduces you to a fully adjustable powder coated aluminium track and bracket system.

Can be used to safely secure:

- Gas/Oxy Bottles
- Fire Extinguishers
- Ladders
- Fuel Drums
- Surf Boards
- Kayaks
- and much more...

Easily installed in:

- Workshops
- Boats
- Utes/Trucks/Vans
- Caravans/ Motor Homes
- Homes
- Tractors

HELPFUL TIPS

If gas bottle restraints are needed for tall cylinders, that is more than 1 metre high, then the following has to be considered:

- If the restraint is for a gas cylinder in a warehouse/storage wall, and is stationary, then 1 set of restraint will suffice.
- If the restraint is used for gas cylinders to be fixed to the back of a moving vehicle, then for safety purpose, 2 sets are needed. One set about 1/3 way off the ground and another one 2/3 from the top. This is to ensure maximum security due the weight of the cylinders on a moving vehicle.

Strap size Calculator.

To ensure that the straps are suitable length for your cylinder, here is a simple calculation.

Example:

Size of Gas Bottle	Diameter of Bottle	Strap size needed as a minimum
E size cylinder	210mm	65mm

Go to: <https://www.omnicalculator.com/math/cylinder-circumference>

The above web site will help you to work out other size straps needed for different size gas cylinders

Specifications Details

Range of Gases In addition to the standard range of welding and cutting gases ie. Acetylene, Argon, CO2, Oxygen and LPG, Omega Premium single stage regulators are also available for a variety of Industrial gases including Air, Nitrogen, Helium and Hydrogen.

Range of Pressures Regulators are available for a range of outlet pressures up to 1000 kpa.

Safety Measures The single stage regulators have been designed for use with high pressures up to 24,000 Kpa and are fitted with the a tamper proof relief valve. All gauges are fitted with rear blow-out discs to allow safe venting of gas if over pressurisation occurs. The inlet stem has been fitted with a sintered bronze filter to reduce the possibility of combustion by foreign matter at high velocity.

Standards The Omega range of regulators have been manufactured in accordance with Australian Standards AS4267-1995.

Warranty All Omega Regulators carry a Six (6) month manufacturer's warranty against faulty parts and workmanship
All components are manufactured to international standards.

OMECO2H

The CO2 Heater has a body forced from class A brass bar ensures maximum strength, serviceability and safe.

Power rating is at 190W.

Housing is made of in flame-retardant PC, ensuring insulation and flame-retardance.

Standard for the OMECO2H is EN IO2503.

MG310

This balloon filler has a piston design for quick inflation of balloons.

Attach this filler to the gas bottle and slide balloon over filler nozzle and tilt in any direction to fill.

FBAROXAC	Flashback Arrestors Oxygen/Fuel Gas 2 Pack (Regulator)	1 1

Specifications	Details
Range of Gases	In addition to the standard range of welding and cutting gases the FlameStop® range of regulator end flashback arrestors are also suitable for use with LPG, Hydrogen and Natural Gas
Safety Measures	The FlameStop® regulator end flashback arrestors consist of a non-return valve, sintered metal flame filter and thermal cut-off
Standards	The FlameStop® range of flashback arrestors have been manufactured and independently tested to conform with Australian Standards AS4603-1999 EN 730
Warranty	All Wescol flashback arrestors carry a twelve (12) month manufacturers warranty against faulty parts and workmanship. All components are manufactured to international standards

** In accordance with the European standard EN 730 1 (2006) and AS4603:1999 "Gas welding equipment - Safety device - Part 1: Incorporating a flame (flashback) - arrestor"

MPB10180P	One PC Cutting Torch 180 deg 975mm LPG	1

The special gas cutting torches come in 520mm or 975mm length.
Torch head available for 90 degree or 180 degrees

- Triangular Stainless Steel tube design for strength and rigidity
- Tubes braced for extra strength
- Slow control cutting valve from low flow to full. Ideal for Piercing.
- Pre-Heat valves are colour lever and brass handle for strength and reliability
- Cutting torch set up for use with Oxygen/Acetylene or Oxygen/LPG
- Cutting capacity up to 300mm - 90° or 180° Torch Head
- Suitable for use with Type 41 or Type 44 Cutting Tips
- Standard hose connectors (5/8" UNF) for Oxygen or Fuel Gas
- 975mm length ideal for demolition application and operator comfort
- Weight 2.2kg

HEATING TORCH

Stock Code	Product Description	Pack Size
HE-506	Heating Torch	1

Soldering, brazing, annealing, straightening and bending plates, pipes and bars, preheating in welding, drying mould, asphalt work, weed burning etc.

HE-506 Torch comes with 3 different size burners.
The HE506-KIT is made up of:

- HE-506 (SP2481) X 1 Heating torch with three burner tips 25 , 35 , 50mm.
- OMELP35 X 1 LPG Regulator.
- HA0505-LP X 1 5m, LPG Hose (hose with ends fitted)

Use of the Ezyfit

EZYFIT

- This helps to fit LP112 (Welding Hose Fitting 5mm RH (reusable) and LP240 (Welding Hose Fitting 5mm LH (reusable) quickly.
- It can also fit 10mm hose fittings.
- Only need a spanner for gripping and tightening.
- There is a slot on top of the Ezyfit for a blade to cut the hose into the correct offset length to make a hose assembly.
- There are other cutting guides for all even ended hose connections.
- It does not leave rubber plugs in hose.
- The internal guides position the hose.
- The Ezyfit can be held in a vice or be bolted to a work bench
- It fits right and left hand connections in one operation.

Parts code needed for the fittings:

LP112	Welding Hose Fitting 5mm RH (re-usable)
AO-24710A	Nut 5/8 UNF Right Hand Female (oxygen)

LP240	Welding Hose Fitting 5mm LH (re-usable)
AO-247310A	Nut 5/8 UNF Left Hand Female (fuel Gas)

CRIMPER

Use of the Crimper

The external crimper is an easy to use piece of equipment in that it can be transported around the warehouse or taken in a vehicle and used in the field.

This assumes that you also have the external crimp with the nut and nipple to fit.

OMERHINS	Insulator for the OMERH450A only	1
AP9110B	Black Leather Rod Holder	1

Colour of electrode rod holders are for illustration. Colour may change.

Illustration of Metal Insert

OMERH450A | OMERHINS

Size: ID 8cm, Length 35cm
 Holds up to 4.5kg of 30.5cm welding rods
 Convenient belt clip
 For electrode insulation
 Internal divider with 4 separate storage areas
 Keeps electrode fresh and dry with an air tight seal
 Material: High quality plastic which is sturdy and durable

OMERH350A / OMERH350B

Leather rod holder is 360mm in length from base to the bottom of the hanging clip
 Pocket size is 260mm by 50mm round. Will hold a little over 1kg of rods

Only Black available

TUNGSTEN GRINDER

OMETGRIND02

TUNGSTEN GRINDER

Stock Code	Product Description	Pack Size
OMETGRIND02	Portable Tungsten Electrode Sharpener	1

- Portable Tungsten Electrode Sharpener/ TIG Tungsten Electrode Grinder
- Hand held and light weight
- Multiple Grinding Angles
- Dust collection cover included
- Variable grinding speed
- Heavy duty carrying case included

Technical parameters:

Size	340mm x 76mm x 76mm
Net Weight	1.6kg
Grinding spec	Ø33.5 x Ø5 x 2.3mm
Max speed	11000r/min (sux-speed adjustable)
Grinding diameter mm	1.0mm - 4.0mm

Length of tungsten	Shortest length of tungsten to be ground is 30mm
Grinding angle	15°, 18°, 22.5° and 30°
Grinding disc specifications	Ø33.5 x Ø5 x 2.3mm
Power supply	1000W

15100018	Double Ear Clamps 29-34mm	8
14100338	Side Closing Pincer	1

2 Ear version: Extended clamping range
Compact one-piece clamp for robust, secure connections.

Clamp Ear: Fast and simple installation, visible deformation provides evidence of proper closure.

Deburred Edges: Reduced risk of damage to parts being clamped.

DOUBLE EAR CLAMP

Stock Code	Product Description	QTY
16700004	Stepless 1 Ear Stainless Clamp 7.8-9.5mm	20
16700007	Stepless 1 Ear Stainless Clamp 9.6-11.3mm	20
16700011	Stepless 1 Ear Stainless Clamp 11.3-13.8mm	20
16700016	Stepless 1 Ear Stainless Clamp 13.2-15.7mm	20
16700020	Stepless 1 Ear Stainless Clamp 15.3-18.5mm	20
16700024	Stepless 1 Ear Stainless Clamp 17.8-21mm	10
16700029	Stepless 1 Ear Stainless Clamp 20.9-24.1mm	10
16700033	Stepless 1 Ear Stainless Clamp 23.9-27.1mm	10
16700040	Stepless 1 Ear Stainless Clamp 28.4-31.6mm	10
16700042	Stepless 1 Ear Stainless Clamp 29.9-33.1mm	10
14100338	Side Closing Pincer	1

Clamp Ear: compensates for component tolerances, adjustable surface pressure.

Dimple: increases clamp force, spring-effect compensates for changes in diameter due to thermal expansion due to thermal expansion.

Burr-Free Strip Edges: reduced risk of damaged to parts being clamped.

INDUSTRIAL PIPESTANDS

SR90091

PIPESTAND

SR90091A

PIPESTAND WITH ROLLERS

(Pipestand and rollers are sold separately)

TECHNICAL SPECIFICATIONS:

Collapsible Pipestand I SR90091

- This collapsible Pipestand lets you support your pipe for various fabrication processes.
- Its roller heads keep the pipe centred so you can work on it with outstanding precision.
- You can adjust its height from 71cm to 122cm, which allows you to work with greater comfort.
- 2.5cm square box section construction.
- Maximum pipe diameter is 30.5cm.
- Inside of the “V” measures 195cm across.
- Safety working load is 1200kg.
- Fixed welded base.
- Folding legs allows for easy storage and transportation.
- Weight of Pipestand and box is 12kg.
- Addition roller heads can be purchased as a pair which slides on into the “V”.

PIPESTANDS

Stock Code	Product Description	Pack Size
SR90091	Pipestand has a SWL of 1200kg	1
SR90091A	Roller Sleeves 1 pair	1

SR90092

PIPESTAND SWL 2265KG

Large V Head Code: SR90092

- Heavy duty Pipestand with long arms.
- Base yellow 4 legs weighs 10 kg height 50 cm.
- Top Long V-head weighs 8.5 kg height 29 cm.
- Pipe holding capacity for 2265 kg.
- Pipestand adjustable height from 61 cm to 92 cm.

PIPESTAND SWL 2265KG

50505-AT

50505

50505-OR

50505-AT - AT1000 Air Filter

The air filter eliminates contaminants such as sputter caused by moisture and oil from compressed air lines. It filters out particles as small as .01 microns.

50505 - Air Filter Cartridge

Replacement filter for the air cartridge. It ensures long tip life and ultra clean dry compressed air.

High-performance - filters out particles smaller than 1-micron.

50505-OR - AT100 Air Filter O-ring

Replacement O Rings for the filter – pack of 5.

XR9581A True Vision Helmet, Black

Specifications

Item Model	XR9581A
Welding Filter Model	YXE-9581 PRO (True Colour)
Viewing Area	9.8 x 8.7cm
Outer Lens	XR750 - 13.8 x 11.8cm
Inner Lens	XR760 - 10.5 x 9.2cm
Grinding Function	Yes, Internal
Shade State	DIN4/ 5-8/ 9-13
Shade Control	Internal Stepless Variable
Sensitivity Control	Internal Stepless Variable
Arc Sensor	4
Battery Replaceable	1 x CR2450
Warranty	24 Months

XR938H/BK True Vision Black 4 Sensors

Specifications

Item Model	XR938H/BK
Welding Filter Model	YXE-858E PRO (True Colour)
Viewing Area	10 x 6cm
Outer Lens	XR720 - 11.5 x 10.4cm
Inner Lens	XR710 - 10 x 6.3cm
Grinding Function	Yes, External
Shade State	DIN4/ 5-8/ 9-13
Shade Control	External Stepless Variable
Sensitivity Control	External Stepless Variable
Arc Sensor	4
Battery Replaceable	1 x CR2450
Warranty	24 Months

TECHNICAL DATA

Viewing Area	10 x 5.3cm / 3.94" x 2.08"
Cartridge Size	11cm x 9cm / 4.33" x 3.54"
Up/IRE Protection	Permanent Shade DIN16
Light State	DIN Shade 4
Dark State	DIN Shade 5 to 13 Variable
Power Supply	Built in solar cells with replaceable batteries
Power On/Off	Fully Automatic
Switching Time Light to dark	1/30,000 seconds
Dark to Light	0.1-1.0 seconds (External variable)
Operating Temp	-10°C to +60°C (14°F to 140°F)
Storage Temp	-20°C to +70°C (-4°F to -158°F)
Helmet Material	High Impact Polyamide Nylon
Total Weight	470g
Minimum Amperage Required	5A

FEATURES

- True colour lens
- Slim and lightweight
- Automatic light adjustment from light to dark in 1/30,000th of a second
- Shade control from DIN 5-13
- Variable sensitivity
- Grinding mode
- Variable delay
- Viewing area 10 x 5.3cm (3.94" x 2.08")
- Full face coverage
- Suitable for TIG welding
- Automatic power on/off
- Battery life expectancy 2 years
- UV/IR protection up to shade DIN 16
- 14 months warranty
- Outer Lens - XR720 - 11.5x 10.4cm
- Outer Lens - XR730 - 10.5 x 5.8cm

Proban Jacket Refl Combo Hi Viz BL Hose Access. Size M to 4 XL

76cm length of the jacket

Cool Flame Retardant Jacket, available in the colour combination of orange, blue and black.

Sleeves with select split cowhide, superior heat and abrasion resistant.

Body with flame retardant sateen, which will retain their flame retardancy for dozens of home washing.

Sewing with Dupont KEVLAR® thread and double locked stitches to minimise seams burnout.

Fire dielectric and insulated snaps front system with spatter guide layer enhances fit and safety.

Comes with Hi-Viz straps and back has hose accessibility feature

AP3000C

Charcoal Brown Cowhide Full Protection Hood

39cm height x 50cm girth

- Side split cowhide outer shell.
- Heat and Abrasion resistant.
- Cotton Mesh lining with concealed seams.
- Good ventilation and comfort.
- Longer length cape to protect the neck.

AP6680

Royal Blue FR Full Protective Hood

39cm height, 50cm girth

- At the back, Velcro Strap and buckle outside, easy to put on safety helmet and face shield.
- Washable Flame Retardant cotton sateen for the outer shell, preventing welding splatter.
- FR Sateen could retain their flame retardancy for dozens of home washing.
- Cotton mesh lining has concealed seams.
- Magic sticker closure.
- Velcro straps and buckle around the head.

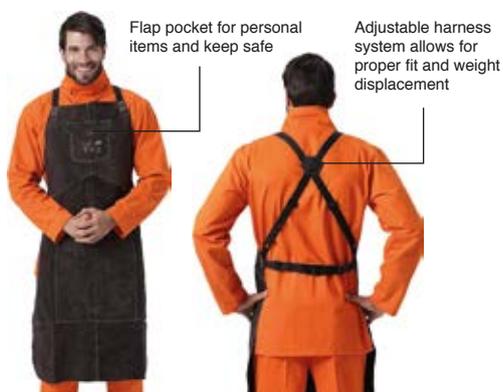

Leather Welders Apron Charcoal Brown

61cm x 61cm | 50 to a carton

- Apron for waist protection
- Made of select split cowhide for maximum durability and heavy duty protection
- Sewing with strength and flame retardant Dupont KEVLAR® thread
- 63cm x 60cm

WELDING CURTAIN

- Screens are made with a specially formulated vinyl to 0.4mm thick.
- These screens are transparent and resistant to UV rays, flame and abrasion all vinyl screen edges are hemmed with Dupont KEVLAR® Stitching.
- All ends have press studs at 30cm intervals.
- Red and Green Screens have been tested and pass test standards AS/NZS 3957:2014.
- The curtain frames are on rollers which provide lightweight solution for portable protection of workers and equipment.
- Helps to protect the surroundings from flying debris, sparks and harmful UV rays and radiation.

OMESF1050 Fibreglass Welding Blanket 1.0x50m roll (HT800)

HT800 - fibreglass blanket is used widely as a welding blanket and an insulation fabric to protect sensitive applications.

Material is treated with a satin weave pattern, designed for heat dispersion and protection against sparks.

Temperature rating is 550°C
Not for exposure to naked flame.
Comply to Australian Standard AS-3504.

APLB1818

OMESF1818

OMESF1050

High Silica Fabric for Higher Temperature Range Protection

SLF84 and SLF88 are High Silica Fabric, which have the qualities of high temperature resistance and anti-oxidation.

Due to its low thermal conductivity and thermal resistance, it is widely used in high temperature electrical insulation and other hazardous fields.

Maximum working temperature is up to 1600°C and at 1000°C and can be used continuously for long periods and performance is consistently high.

The fabrics are suitable for industrial sectors including metallurgy, rockets, aircraft, shipbuilding, automotive, nuclear power, and machinery.

As a high temperature welding blanket and screens, both thermal and mechanical increases the operational safety of industrial facilities and protection of equipment.

OMETPF01KIT

Excellent value for combination Tig Pen and Tig Finger 01.

OMETPF01KIT

TIG PEN:

This handy Tig Pen is used as a Welding Rod Holder for welding with any wire 1.0mm to 3.2mm.

This pen-like device helps to feed Tig filler rod. The Tig filler is inserted from the rear and then the wire is advanced by rolling the wheel with the tip of the index fingers.

End result is a smooth wire feeder and minimise waste of filler wire.

Tig FINGER 01:

Product is produced by fibreglass yarn.

OMETF01 has 200tex fibreglass yarn.

Weave is 108pc of yarn.

OMETF02 has 350tex fibreglass yarn.

Weave is 108pc of yarn.

The thicker yarn results in thicker and larger inner diameter. The thickness acts like an armour in the protection of the finger.

Working temperature is 550°C which helps the work at more extreme welding environment.

We carry a large range of Tig torches, parts and accessories. Some of our tig torches are imported completely built or they can be custom built locally to suit all your Tig welding applications.

No job is too small.
From the traditional tig torches to the new Pro-Grip Ergo Tig range, there will be a quality Tig Torch which will give you the best performance.

01500

(60/40 Rosin Cored 1.6mm X 500gm)

It is a tin lead alloy wire solder with a rosin flux core used in electrical applications, including wiring and other fine electronic work. 361 degrees melting range.

Do not use it on drinking water lines; Non-corrosive and non-conductive; Rosin flux is contained in wire core, no external flux is necessary

316LFC09-0.9

A self-shield, flux cored, stainless steel wire used for welding type 316 series stainless steel.

The Mo contained improves resistance to pitting and provides increased creep resistance.

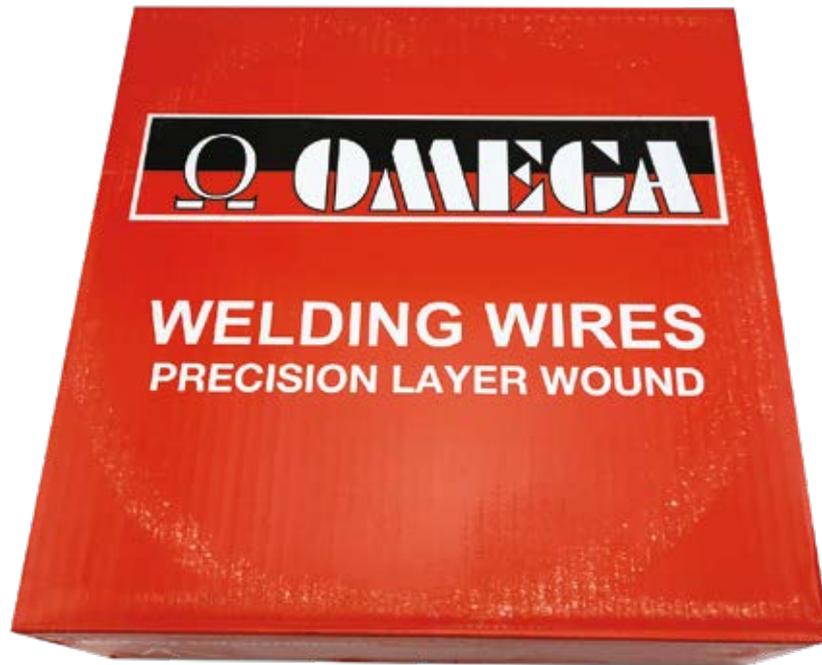

The super low carbon content minimizes carbide precipitation and makes it more resistant to intergranular corrosion.

OMEEA60012-15

A gas shield flux cored hardfacing wire, shielding gas 80%Ar + 20%CO₂.

The weld metal has excellent resistant to abrasive and metal-to-metal wear. HRC_≥55.

Applied in grain machinery, shield machine, brick-making die, shovel bucket etc.

OMEINM11009 OMEINM11012

ER110S-1 is an alloy steel designed to produce high strengths, a very tough weld metal for critical applications.

Used for a variety of structural applications where tensile strengths may require 100,000 psi with excellent toughness at -60° F.

Developed for welding such alloy as HY-80 and HY-100 steels.

OMEINMD209 OMEINMD212

ER80S-D2 is a low alloy copper-coated tig rod with 0.5% Mo content designed for welding low-alloy steels with high tensile strength and creep resistance.

It shows good impact strength at low temperatures and suitable for pipelines and pressure vessels with operating temperatures of about 500°C.

It will also find applications for the repair of medium strength steel castings

FELDER (GERMAN) SILVER SOLDER FLUX

SILVER SOLDER FLUX

SILVER SOLDER FLUX

Stock Code	Product Description	Pack Size
ALMFLUX	Aluminium Welding Flux (Powder) 250g	1
26420050	Aluminium Welding Powder 100g	1
SBAFLUX	Silver Solder Flux (Paste) 250g	1
UNIFLUX	Universal Welding Flux (Paste) 250g	1

ALMFLUX

Aluminium Welding Flux 250g powder
Flux based on hygroscopic chlorides and fluorides mainly lithium connections. Depending on the field of application, the following aluminum welding wires can be used; S-Al99.5, S-Al99,8,; S-Al99,5Ti (Din 1732)

SBMFLUX

Silver Solder Flux (paste) 250g
Flux for silver hard solder "Cu-Rosil"
for brazing of copper and copper alloys
(effective range of 500-800 ° C)

UNIFLUX

Universal Welding Flux (paste) 250g
Hard soldering powder "Universal" is a hard solder flux based on boron compounds for hard soldering of copper, copper alloys, grey cast iron, malleable cast iron and steel as well as the welding brass (no light metals)
